COMING TO SLOVENIA

--- To study

When you come to Slovenia to study, it is important to know:

- **firstly**, if you are a foreign student, coming to Slovenia, you are, according to the Article 7 of the Slovenian Personal Income Tax Act, a non residents of Slovenia, if you come to Slovenia for the sole purpose of study. In case you are coming to Slovenia to study and work (more than is needed for your life expenses as a student), you will also stay a non resident for the first six months, unless you establish residential ties (e.g. habitual abode or the centre of vital interests) in Slovenia prior to the expiration of those six months. After six months, it is important to settle your residency status by either going to the offices of the Financial Administration and filling in the questionnaire: [Determination of residency status – entering the Republic of Slovenia](#) or downloading the questionnaire from the previously mentioned link.

The questionnaire is not mandatory, you can simply file an application for the determination of your residency status.

- **secondly**, if you are, as a foreign student, planning to work in Slovenia, you have to obtain a tax number (for the purposes of receiving your earned income), which you get at the competent tax office (local branch office). You have to fill in [a form DR-02](#).

[More information about tax numbers for foreign individuals.](#)

More information about taxation of student's remuneration [can be found in Section Questions & Answers.](#)
